January 14th 1890 Steam Whaling Bk Beluga

Tues 14

At ten A.M. fine bright weather & light air from SEast look over anchor & started out under steam passed the heads at twelve. Calm. tide ebbing Engines do not work well at this P.M. pass Whitting Buoy Engines work a little better at six P.M. South-Foulon bears SEast by Compass dist. about six miles Calm continues one of the firemen fell & broke two ribs all the others drunk slack steam & cool fire down

Weds 15th

Comes in with moderate breeze from SEast & freshening ship under topsails at ten A.M. full upper top sails & jib at two P.M. full foresail blowing moderate calm & rain at five P.M. begins to moderate & haul to SEast by west worn ship & head to SEast rain clears some

Thurs 16th

Comes in with moderate breeze from SEast & fair weather middle squally & rainy latter moderate & variable ship working to SEast under easy sail ship very deep & heavy & works very clumsy & makes some water suppose it to be some pipe or valve loose

Lat 37-06

Long 123-34

Fri 17

Comes in with fresh breeze from W SEast & baris to SEast with squalls middle fairer latter wind hauls to west by compass fair weather Come SEast nine men sick with colds &c

Begins a voyage Cruising to westward bound for Yellow Sea

Sat 18th Comes in with fresh breeze from W & West & fair weather & continues all day. Amm S & West but men sick & split. Mainloft Gal Sail & Ryal Lat-36-42

Sun 19 Comes in with moderate breeze from W & West & getting light. Middle part freshens again at seven A.M. but in steam for one hour but Engines do not work good fair weather throughout. Lat-35-04 Long 127-45

Mon 20th Comes in with moderate breeze from West & fair. Callin fresh & cloudy. Amm S W by South by Compass Lat-33-00 Long 129-20

Tues 21st Comes in with fresh breeze from West & fair. Middle hauls to North light. Squalls of rain. Callin steady & West light & fair Lat-31-21 Long 131-37

Weds 22nd Comes in with calms & light variable air from all quarters. Callin light breeze from West & light. Squalls of rain. Ship working to land waiting for Engines to be repaired &c. Lat-30-31

Thurs 23 Comes in with fresh breeze from West & squally. Middle hauls. Callin thick & rainy. Wind blows to West & unsteady. Large swell from North. Ship on star tack slow work

Fri 24

Comes in with calms & light air with rain Middle fresh breeze from SEast latter some rain continues large swell from North got up steam at eight AM Engine worked well huge come & let steam off again

Sat 25

Comes in with moderate breeze from North & fine weather & continues strong I went

Lat 21-40

Log 134.48

Sun 26th

Comes in with light air & Calms Middle Slick Calm latter a light breeze from South & Calm again got up steam at ten AM at nine PM let it down Engine's work fair

Mon 27th

Calm & hot no signs of wind Middle some latter gentle breeze from SEast put on steam at seven AM ship run six & a half knots by log some swell on can no doubt run eight or nine if driven to it

Lat 26-30

Tues 28

Comes in with light breeze from SEast & raining & continues

Wed 29

Comes in with moderate breeze from ESEast & dark cloudy weather & continues large swell from SEast & North causing the ship to roll heavily

Thurs 30th

Bornes in with moderate breeze
from SE & fair weather & continuous

Lat 23-10

Long 142-16

Fri 31st

Bornes in with moderate breeze
from SE & fair weather middle same
later wind hauled to East light with
dark cloudy muggy weather at four P.M.
found Fore yard badly rotten nearly the
whole length

Sat 1st

Bornes in with light air
from East & fair weather & continuous
sent down Fore yard for repairs

Sun 2

Bornes in with moderate
breeze from SE & fair weather
& continuous

March
Sat 15th

Bornes in with calms &
light air from SE & fair clear weather
in a school of large sperm whales
hounded & got two big fellows whales
from mid off steamed up & followed
with one whale two miles got all
sung at two P.M. fresh breeze from
SE & very fine & clear

Sun 16

Bornes in with strong
breeze from SE & rain at two
am moderate gale & eight a breeze
lost both whales continuous blowing for
two days

Lat 35 = or N
L 148 = 40 E

April 1890

Sun 27

Journal^{.01}

Tell me thou mighty deep;
 Whose billows round me play;
 Knowest thou some favored spot;
 Some Island far away;
 Where weary man may find
 The bliss for which he sighs;
 Where sorrow never lives;
 And friendship never dies?
 The land waves; rolling in perpetual flow;
 Stopped for a while; & sighed to answer "No."

Tell ^{me} my Secret Soul
 O. tell me Hope & Faith -
 Is there no resting place
 From sorrow sin & death -
 Is there no happy spot -
 Where mortals may be blessed
 Where grief may find a balm
 And weariness a rest -
 Faith - Hope & Love but - bows to mortals given
 Leaved their bright-wings & whirled far in Heaven

How to be Healthy & Wealthy

Don't worry

Seek peace & pursue it -

Be cheerful. A light-heart-lives long

Work like a man but don't be worked to death

Never despair. Lost-hope is a fatal disease

Spend less nervous energy each day than you make

Don't hurry. To Swift-arrives as tardy as to slow

Sleep & rest abundantly. Sleep is nature's benediction

Avoid passion & excitement. A moment's anger may be fatal

Associate with healthy people. Health is contagious as well a disease

Don't over eat-don't starve but your moderation be known to all men

Breathe fresh air day & night. Oh if you knew what was in the air

Think only healthful thoughts. as a man thinketh in his heart so he is

Loving words will cost but little
 Journeying up the hill of life
 But they make the weak and weary
 Stronger braver for the strife.
 Do you count them only trifles
 What to earth are sun and rain
 Never was a kind word wasted
 Never one was said in vain
 When the cares of life are many
 And its burdens heavy grow
 For the ones who walk beside you
 If you love them tell them so
 What you count of little value
 Has an almost-magic power
 And beneath their cheering sunshine
 Hearts will blossom like a flower

in time to avert what would have
a serious accident.
The schooner W. S. Bowne, Captain
William Blum, arrived yesterday from
Honolulu. When the tug Active
steamed off to the schooner from
Meiggs' wharf the captain was told of
the death of his daughter Dorothy,
which happened when he was almost
in sight of home. Captain Blum went
at once to his home, and arrived there
just in time to accompany the remains
of his child to their last resting place.
The Corona arrived yesterday night.

Everything in life has a value depending on the manner
in which it is regarded. Mole-hills become Mountains when
viewed through the proper magnifier, & the same glass reversed will
diminish an elephant to lilliputian proportions.

There is no deeper lesson to be read in daily living than that which
consists in looking back over the events of a month a week or even a day
& viewing their changed proportions, we stand up for our rights & are
obliged to confess in quiet after reflection that we were merely mistaking
with unpardonable obstinacy upon the most trifles.

"The hatred of those most nearly connected is the most inveterate,"

"Consider that the invisible thing called a good name, is made up of the breath of the numbers that speak well of you."

"Who purposely cheats his friends would cheat his God."

"The past in many things is the foe of mankind for the past has no hope"

"When you comes in to any fresh company
"first" observe their humors; "Second," suit your own carriage thereto; by which insinuation you will make their converse more free and open,"

The passions, like heavy bodies down steep hills, once in motion move themselves to know no ground but the bottom

"Our happiness in this world depends on the affection we are enabled to inspire."

"Through lattered clothes small vices do appear robes & furred gowns hide all"
